

Preface

We are pleased to present the volume of 2019 10th International Conference on Environmental Science and Development (ICESD 2019). The conference ICESD 2019 has been held in the Politecnico di Milano, Italy during February 13-15, 2019. The conference is dedicated to building an overarching technology platform for researchers in academics. As part of the event, the ICESD issue meant to look far out enough in time, space and across disciplines and focusing on Environmental Science and Development.

The conference program was the result of hard work and dedication by many individuals. With the important efforts of the whole committee, the evaluation of all the papers was performed based on the reports from anonymous reviewers, who are qualified in the field of Environmental Science and Development. This volume will provide an opportunity for readers to engage with a selection of refereed papers that were presented during the ICESD 2019 conference.

Assoc. Prof. Valentina Busini from Politecnico di Milano, Italy has been invited to do the keynote speech as conference chair and keynote speaker. ICESD 2019 had eight sub sessions with different topics: Renewable Energy and Electric Power Engineering; Biomass Resources and Bioenergy; Geosciences and Geology; Electrochemistry and Chemical Engineering; Energy Engineering and Management; Air Pollution and Noise Pollution Management; Resource Science and Environmental Engineering; Urban Engineering and Eco-Environmental Management.

Our sincere gratitude goes to the session chairs and the technical program committee members for their hard efforts in ensuring the paper quality.

We hope that you enjoy and find valuable your engagement with the ideas in sustaining your own professional development in the global world of engineering energies.

Conference Chair

Assoc. Prof. Valentina Busini,
Politecnico di Milano, Italy
