

## PREFACE

The **2019 International Symposium of the Society of Core Analysts (SCA)** was held in Pau, France between August 26<sup>th</sup> and 30<sup>th</sup>. The theme for the Symposium in 2018 was “*Core Analysis in a Digital World*”. The symposium was attended by representatives from industry, academia and organizations and vendors. With a large variety of vendors, technical veterans, industry leaders, and rising young professionals, the Annual meeting of the Society of Core Analysts is a great opportunity for professional interaction, to share ideas, innovations, knowledge, best practices, products and services.
