

1st International Conference on Environment and Smart Society (ICEnSO 2023)

Theme: The Role of Smart Society in Sustainable and Green Economic Environment

TERM OF REFERENCE

Universitas Muhammadiyah Yogyakarta (UMY)

Introduction

Innovation have been showing impacts, for enlightenment or disruption of the society. The advancement of society 5.0 has lead to also endangering environment and thus needs sustainable – green smart society.

Definition

International Conference on Environment and Smart Society, abbreviated and henceforth called 'ICENSO', is an annual conference held by Universitas Muhammadiyah Yogyakarta (UMY). ICENSO, by definition is a conference inviting scholars, policymakers, and entrepreneurs to discuss sophisticated discourses on smart society and environment. ICENSO consists of two schemes: call for papers and research symposium. This year, ICENSO 2023 brings up the main topic 'The Role of Smart Society in Sustainable and Green Economic Environment'.

Call for Papers

Scope and themes

ICENSO 2023 invites research papers from multidisciplinary field of studies, with scopes limited to:

- Smart environment for smart cities
- Smart environment monitoring system
- Media and Culture in Smart Society
- Legal and regulation in smart society
- Smart education university learning environment
- The economics of smart society
- State of the art smart environments
- Internet of things smart environment

Editorial Policy

All articles are going to be peer reviewed by the members of the Scientific Committee and approved by the Editor-in-Chief of ICOSIHESS 2022 who affirms that this document is a truthful description of the conference's review process.

Review Procedure

ICOSIHESS has conference submission system developed by Universitas Muhammadiyah Yogyakarta (conference.umy.ac.id). Participants could download templates of the manuscript in system. All reviews and correspondence with the authors are conducted through the system. The reviews were double-blind. Each submission was examined by at least one reviewer(s) independently.

The submissions were first screened for generic quality and suitability. After the initial screening, they were sent for peer review by matching each paper's topic with the reviewers' expertise, taking into account any competing interests. A paper could only be considered for acceptance if it had received favourable recommendations from the two reviewers.

Authors of a rejected submission were given the opportunity to revise and resubmit after addressing the reviewers' comments. The acceptance or rejection of a revised manuscript was final.

All articles' authors are hidden automatically by the system to ensure the anonymity and thus review is done carefully, scientifically, with zero conflict of interest.

Quality Criteria

Reviewers were instructed to assess the quality of submissions solely based on the academic merit of their content along the following dimensions:

- Topic Relevance (how the topic discussed in the paper related with the scope/theme of the Conference)
- Originality/Novelty (To what extent is the topic original or does the paper suggest novelty)
- Depth of Analysis (To what extent do the authors analyze the research finding)
- Significance (How does the paper contribute to the field?)
- Methodology (How does the methodology used by the author relevant with the proposed aims and resulted in good findings?)

In addition, all of the articles are checked for textual overlap in an effort to detect possible signs of plagiarism by the publisher. ICOSI2022 uses *Turnitin* for all papers before review.

Important Dates

- Abstract submission : 5 January – 10 March 2023
- Final paper submission : 10 April 2023
- Conference day : 9-10 August 2023

Article publication opportunities

Qualified articles would be published in AIP Conference Proceedings (Scopus index) or E3S Web-of-Conferences Proceedings (Scopus).

Conference and seminars

Venue and Time

The conference is going to be held in Universitas Muhammadiyah Yogyakarta, located in Jalan Brawijaya, District Kasihan, Yogyakarta, Indonesia. The conference is scheduled on 9 – 10 August 2023. The event will have two main schemes: plenary keynote session and parallel presentations.

Keynote session

Keynote Speakers: Jhonny Gerrard Plate – Minister of Communication and Information of the Republic of Indonesia

Parallel session

All participants would have to present their research on the site and all participants would have discussion session on each forum.

Participants

ICENSO is held in the umbrella of UMY's ICOSI (International Conference on Sustainable Innovation). The records of the participants in the past four years are as follow:

Year	Number of Participants	Website
2022	1100++ participants	https://icosi.umy.ac.id/2022
2021	1200++ participants	https://icosi.umy.ac.id/2021
2020	1100++ participants	https://icosi.umy.ac.id/2020
2019	1050++ participants	https://icosi.umy.ac.id/2019

Committee of ICEnSO 2023

Scientific Committee

Editor in Chief

Prof. Dr. Dyah Mutiarin

Universitas Muhammadiyah Yogyakarta, Yogyakarta, Indonesia

Editors:

Minhaj Alam

Luleå tekniska Universitet, Sweden

Desmond Cahill

Royal Melbourne Institute of Technology, Australia

Assoc. Prof. Dr. Juwaidah Sharifuddin

Department of Agribusiness and Bioresource Economics, Universiti Putra Malaysia, Malaysia
